

FARM TO FLAVOUR

International Buyer Guide

A quick guide to starting an Indian spice and agro-product export enquiry.

1. Start with the product

Tell us the exact product and form you need - for example Cumin Seeds, Coriander Seeds, Fennel Seeds, Sesame Seeds, Whole Chilli, Chilli Powder or Chilli Flakes.

2. Share the quantity and destination

Include the required quantity and destination country. This helps the export team review the appropriate commercial and shipment requirements.

3. Confirm the specification

Share product quality requirements, colour, form, application, testing/documentation needs and any buyer-specific parameters.

4. Select packaging

Packaging may include PP woven bags, FIBC jumbo bags, laminated pouches, paper bags or HDPE bags, subject to the product and buyer requirement.

5. Submit the export enquiry

Use the Contact page and provide your name, business, email, phone number, product, quantity, destination and requirement.

6. Documentation & trust

Documentation and certification needs vary by product and destination. Ask the export team to confirm the applicable documents for your enquiry.

7. Continue on WhatsApp

FARM TO FLAVOUR WhatsApp: +91 95868 26046.
